**The Island Pond Association, Stoddard NH 03464**
**49th Annual Meeting, August 8, 2026**

Members and guests of the Island Pond Association (IPA) met at the Stoddard Town Hall at 7 PM for the annual business meeting and a program. There were 42 attendees.

Call to Order - President David Lesser called the business meeting to order at 7:01pm. Introductions of board members.

Secretary's Report –Charlotte Lesser stated that the meeting minutes from last August were emailed to members for corrections and/or comments. There were none sent to her.
A motion (Bob Beltz) to approve the minutes was made and seconded (Donna Molina) unanimously passed.

Membership Report - Charlotte Lesser reported that there were 44 memberships the past year.

Treasurer's Report – Peter Girard presented the treasurer's report. The expense for the website renewal explained by Charlotte. She stated that she received a renewal notice for $817 and that the past 3 year renewal had only cost $249. She negotiated with GoDaddy and got the price down to $491.64 but she needed to approve that amount immediately. She conferred with David Lesser and they agreed to pay it and then bring it to the board. The board approved the amount but knew it had to come to the membership. A discussion ensued. The members present approved the expense.

Donna Molina asked why did IPA pay for the refreshments for the Monadnock Conservancy celebration? David explained that the board approved that expense at their June '26 meeting and felt that since IPA hadn't given any money toward the purchase of the Island Pond's 8 island and one marsh that paying for refreshments was ok.
Motion to approve the treasurer's report was moved (Geof Molina), seconded (B Beltz), and approved unanimously. Two suggestions for possible alternatives to website hosted by GoDaddy. Helen S. asked about having a Facebook site– Charlotte stated that not enough people have Facebook accounts Scott S suggested checking out Google sites.

*Full treasurer's report at the end of the minutes.*

Volunteer Lake Assessment Program (VLAP) – Started 40 years and the concept is to get community members involved & concerned about water quality. Geof Molina said that generally the water quality is quite good & stable. Geof Molina and Steve Jacobs comprise the water testing team and collect water samples four times a year (May-August) which are sent to the NH DES in Concord. They go to Concord to get materials for the sampling and take the samples to them. Inlet, Outlet, deep spot & boat launch. Results are returned about 1 month later. Visibility is better this year because of less flooding. E coli has been extremely low which is good. NH State decided not to pay for E.coli which we learned in May. E.coli testing is now done in Keene. The town of Stoddard agreed to pay for that testing. The most current VLAP summary report 2025 is on the website. The 2026 VLAP should be on our website by February 2027.

No cyanobacteria bloom this spring. Jay Kahn asked about who monitors blooms. Helen responded. She tests and lets DES know if she has a concern.

Lake Host Program – David Lesser is the treasurer for Island Pond & Highland Lake Lake Host programs. He stated that the program is now run by Dean Dorman, a resident on Island Pond. This program is run by the NH

Lakes Association and both IP and HL associations are required to pay a fee, which is part of our budget, to have the program. The town of Stoddard also contributes a generous monetary amount to allow us to run a program from Memorial Day until mid-September. There is a paid assistant coordinator, Candia Campbell, who handles all the logistics of scheduling and overseeing the hosts at all 3 sites (2 on Route 123 and 1 at the Highland Lake marina). There will not be a final boat survey count until September. Since there is only enough funding and personnel to monitor boats on weekends, holidays, and fishing derby days there are obviously boats entering and leaving both lakes during weekdays. Hopefully those boaters read the lake host informational signs at all 3 ramps and check their boats/trailers themselves. To date this season there have been no discoveries of any invasive plants or animals in either lake, which is important to us since the Highland Lake water flows into our lake.

Weed Watcher Program – C. Lesser, head of the weed watchers, reported that there are 14 weed watchers who have been out regularly keeping an eye out for invasive weeds & animals both in their designated areas and on the pond in general. As of today, nothing suspicious has been found. She also stated that she has been training volunteers for Highland Lake. Volunteers are always welcome to join the Weed Watchers.

Islands & marsh acquisition update: David Lesser
8 Islands and a marsh were purchased by the Monadnock Conservancy after 3 years of negotiating. The funds raised are for conservation easements, monitoring of problems on the islands or in the marsh. The Conservancy built a new kiosk at the boat launch and will include a map and space for both Monad. Conservancy and IPA. A party was held to thank the donors.

New budget for 2026-27
For the ensuing fiscal year, the Board recommends a contribution of $25 State of NH nonprofit dues, $50 to the Loon Preservation Society and $300 to NH Lakes for the Lake Host program. $100 for office supplies. Moved, seconded, and approved unanimously

Slate of Officers – David Lesser presented the slate of Officers recommended by the Board:
Bob O'Brien as Vice President and Peter Girard as Treasurer. A motion to approve the slate of officers and directors (Bob & Anne O'Brien, David Lesser & Charlotte Lesser, Don & Paula Flemming, Geof Molina, Harriet Beckwith, Sean Flemming). Membership approved the board.

The business meeting was adjourned at 7:33 pm

The treasurer's report is on the next page.
